

European mortality bulletin week 23, 2011: Mortality has since the middle of January been within the normal range for all countries.

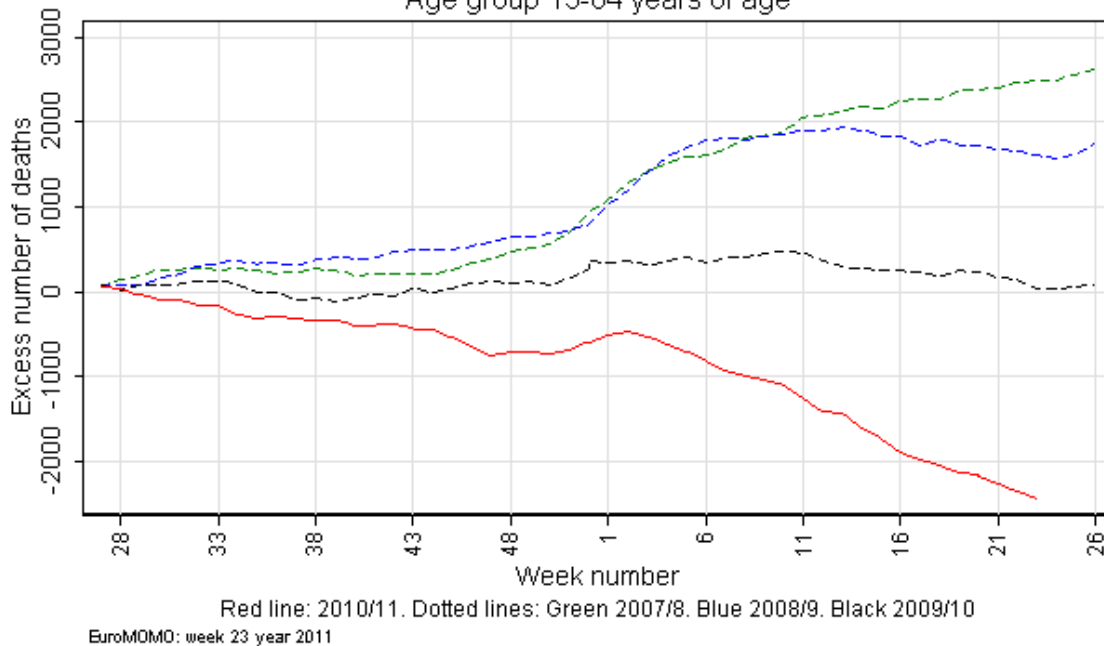

Over the last month, all-cause number of deaths, corrected for delay in local reporting of deaths, has been below 2 z-scores, with some variations between countries (spread in z-scores).

Cumulated excess deaths for this season compared to previous seasons are within the same range. Among adults (15 to 64 years of age) a lower number of excess deaths compared to previous seasons seem to continue

Pooled cumulated excess deaths

Age group 15-64 years of age

The analyses, based on eight countries, were adjusted for differences in local delay of reporting and heterogeneities in pattern and variation between the included countries.
